Director Robert S. Mueller, III  
Federal Bureau of Investigation  
J. Edgar Hoover Building  
935 Pennsylvania Avenue, NW  
Washington, D.C. 20535-0001

Dear Director Mueller:

I apologize in advance for taking you away from your important efforts to protect the United States of America, our wonderful country. However, Civil Rights, one of the five Criminal Priorities noted on the FBI website, is of utmost importance to my family and specifically, the Color of Law section.

I am writing directly to you because we have great concern with the FBI Dallas Field Office. As you know, Mr. Robert E. Casey leads this office, a person you appointed as Special Agent in Charge in 2006.

Our son, Roy Adams, Jr., was involved in a tragic accident wherein Grapevine Police Officer Darren Medlin was fatally injured. In our son's August 2005 conviction for intoxication manslaughter, Euless Police Officer Deana Ramsour testified she turned off her video camera to explain discrepancies in her tape. We made two previous requests to the FBI to determine if the actions of Officer Deana Ramsour violated his civil rights. We were essentially "told there was no basis for an FBI investigation." (See Attachments 1a/1b and 2).

However, believing in our son's innocence we continued to search every avenue for justice. "As luck has it", we came across an article in the Dallas Morning News ("DMN") entitled, Video producer sharpens focus on bad guys to help justice prevail. Jim Appleton, a video expert and the subject of the DMN article, examined a copy of Officer Ramsour's tape that we had in our possession. His analysis of Euless Police Officer Deana Ramsour's videotape is attached. (See Attachment 3).

We request again that the FBI investigate our allegations that Officer Deana Ramsour and the Euless Police Department violated our son's civil rights.

Sincerely,

Laura Adams-Jenkins

Laura Adams-Jenkins
